

Use the table below as a guide to calculate the value of common items that may need to be replaced. Take photos of each room in your home, and your valuable belongings, so that you have a record for insurance purposes.

|                          | Average value* | Your value |
|--------------------------|----------------|------------|
| <b>Bedrooms</b>          |                |            |
| Single beds              |                |            |
| Double/Queen beds        |                |            |
| Bed linen                |                |            |
| Wardrobes (not built in) |                |            |
| Clothes and shoes        |                |            |
| Bedside tables, drawers  |                |            |
| Other                    |                |            |
| <b>TOTAL</b>             |                |            |

|                           |  |  |
|---------------------------|--|--|
| <b>Living/family room</b> |  |  |
| Lounge suite/s            |  |  |
| Coffee table/s            |  |  |
